**THE PENA RESERVOIR (Pena River)**

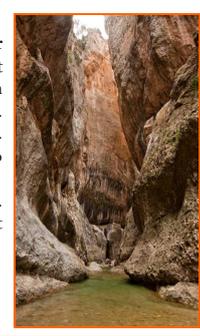

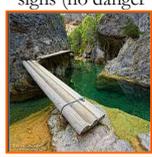

The 3.3 km forest paved track departs from the Saint Anne's Chapel square. Before coming to the reservoir, we find a detour that indicates **La Caixa (PR-TE-152)**, a square-shaped mound on the mountain. Its silhouette can be seen from many points in the region. Near the reservoir we come upon a crossing: to the right we come up to the dam and a paved track takes us to Valderrobres. To the left we find a recreative area next to the reservoir. Coming to the end of the reservoir, after crossing a bridge, we can go to the right along a forest track to Fuentespalda and Peñarroya de Tastavins, recommended for 4WD vehicles and to the left we can go to the Saint Michael de Espinalvá's Chapel (**PR-TE-155**).
